*"Dedicated Data Analyst with experience in collecting, analyzing and interpreting large volumes of data to provide actionable insights."*

## Education

### Walchand Institute of Technology

B.Tech in Mechanical Engineering, CGPA – 8.93/10.00

Solapur, India

August 2020 – June 2024

## Professional Experience

Accenture | Virtual Intern, Data Analyst,

June 2024 - July 2024

- \* Worked on the project "Social Buzz":
- \* Analyzed large social media datasets to identify trends, ensuring accuracy through data collection and cleaning
- \* Utilized data analytics tools to support the project, identifying the top 5 most popular content categories on the platform.
- \* Delivered a detailed report with visualizations highlighting key findings and strategic content optimization.

Cognifyz Technologies | Intern, PowerBI,

July 2024

- \* Performed data analytics and statistical analysis on large datasets.
- \* Developed data models to support decision-making processes.
- \* Collaborated with the team to improve data analysis methodologies.
- \* Prepared reports summarizing project progress and results for management review.

## Projects

### Superstores Sales PowerBI Dashboard — Platform - PowerBI

- Incorporated data analysis techniques, specializing in time series analysis, to deliver valuable insights, accurate sales forecasting, and interactive dashboard creation, driving business success.
- Used complex parameters to drill through in worksheets and customized using filters and slicers
- Created connections, joined new tables, and performed calculations to manipulate data and enable user driven parameters for visualizations
- Used different types of customized visualizations (bar chart, pie chart, donut chart, clustered bar chart, scatter chart, line chart, area chart, map, slicers, etc)

### SQL Data Analysis for Pizza Sales Reporting — Platform - MySQL

- Developed a comprehensive SQL-based pizza sales report, utilized complex queries to analyze sales data, identified trends, and generated actionable insights. Improved data accuracy and reporting efficiency, aiding strategic decision-making.

## Technical Skills

Data Analysis, Data Cleaning, Data Modeling, Statistical Analysis, PowerBI, Python, NumPy, Pandas, MySQL, Microsoft Excel, Microsoft PowerPoint

## Certifications

Microsoft PowerBI Data Analyst Associate (PL300) | Microsoft (July 2024 - in progress)

PowerBI Masterclass | Infosys Headstart (February 2024) | [Link to Certificate](#)

SQL Database for Beginners | Infosys Headstart (December 2023) | [Link to Certificate](#)

Python | Infosys Headstart (December 2021) | [Link to Certificate](#)

Accenture Data Analysis Virtual Internship | Forage (July 2024) | [Link to Certificate](#)
